

Lift Every Voice ... and Advocate for Oberlin Village!

The Oberlin Village community is experiencing an acceleration of demolition, development and renaming of our community. We need to make our voices heard so that the architecture and culture of Oberlin is not forever lost. We ask that you communicate directly with our city leaders who vote on various proposals of development that determine Oberlin's future. To support this advocacy FOV is providing the contact information for those who have the vote and influence to make your voice heard. Ask to be advised of meetings and agendas, request to speak at the meetings, or write asking these representatives to support Oberlin's preservation.

Raleigh Historic Development Commission (RHDC) -
